

# **Visoka škola strukovnih studija za informacione i komunikacione tehnologije**

## **Dokumentacija**

**[http://www.caki.esy.es/sajt\\_mobilni\\_telefoni/index.php](http://www.caki.esy.es/sajt_mobilni_telefoni/index.php)**

**Predmet: WEB Programiranje PHP 1**

**Student: Milos Tanaskovic 148/15**

**Beograd, mart 2017.**

## Uvod:

### Koriscenje programskij jezika

**Za izradu sajta korišđeni su programski jezici i biblioteke: PHP, HTML, CSS, JavaScript, AJAX, MySQL, JQuery, Bootstrap.js. Sajt je radjen u Notpade++ text editoru.**

### Funkcionalnost sajta

Sajt je delimicno kao single page sajt. Prikaz svih proizvoda se moze vrsiti na osnovu id-a strane iz baze , prikazuje se strana na koju je korisnik kliknuo. Na index.php strani nalaze se tasteri za logovanje ,registracija se nalazi na posebnoj strain tj. Register.php,. Nakon uspesnog logovanja pojavljuje se taster za log out. Navigacija je dinamicka I vuće se iz baze, u zavisnosti od uloge korisnika neki linkovi se prikazuju u navigaciji, neki ne.

Na stranama za prikaz mobilnih telefona , celokupni sadrzaj se vuće iz baze. Takodje, na index strani je uradjena galerija preko fancybox 3.0.

Na sajtu je koriscen Ajax za filtriranje I pretrazivanje, Na index strani nalazi se forma za logovanje koja se proverava regularnim izrazima, pored forme je anketa I mogu da glasaju svi korisnici I ulogovani I koji nisu ulogovani. Klikom na taster rezultat odmah se prikazuje statistika ankete, ispod nju u formi tabele

.Pretrazivanje radi na localhostu ovde neće da funkcioniše kod za pretrazivanje se nalazi ispod.

Admin na posebnoj strani koju samo on može videti ima mogućnost dodavanja, editovanja proizvoda. I. može da unosi nove modele telefona da bira po svim kategorijama.

## Index.php
